

Digits data Shapley RMSE vs. total utility calls

800 training points as players · 200 fixed test points · RBF-SVM accuracy · 10 repeats per budget · 641.6k–8.00M total calls

Ratio estimators

Linear estimators

Shaded bands: 95% repeat bootstrap intervals. Both axes use logarithmic scales. Total calls include 1602 exact boundary evaluations. Ground-truth SE-RMSE: 8.48e-06.
